FIRE SAFETY

Each room has a smoke detector that will sound in your room only. In addition, a heat sensor, which detects rapid rise in temperature, will sound an alarm in the building. The local fire department and the Front Desk will automatically be notified. In the event of a fire the hotel will be evacuated for your safety, until a cause for the alarm is found and released by the fire department. See safety information below.

PRECAUTIONS FOR YOUR SAFETY

- Do not smoke in your guest room.
- Know the location of emergency exits, fire alarms, and fire extinguishers.
- Keep a room key close to the bed.

- Put on clothing as protection.
- With your hand, test your door to the hallway heat. Do not grab a door handle before testing the door for heat.
- Evacuate your room immediately by following the escape plan on the back of the door in your room. Take your guest room key with you.
- Proceed to any of the stairwells and move down and out of the building as quickly as possible. While exiting, stay close to the walls and as low as possible to the floor. (DO NOT USE THE ELEVATORS)

IF YOUR ESCAPE ROUTE IS BLOCKED

- Return to your guest room.
- Fill the bathroom sink with water to wet towels.
- Cover any open space under the guest room door with wet towels.
